Walnut Medical™ Walnut Technologies™

Company Brief

An End to End design development and manufacturing – *ODM/OEM partner for medical devices, Neuro-Rehabilitation Robotics, Point of Sale, IOT and Automotive Electronics*

Walnut Medical & Walnut Technologies, a multi-vertical Original Equipment Manufacturer (OEM) with a growing footprint. Established in **2016**, we have steadily evolved into a trusted design and manufacturing partner for technologically advanced solutions with two production units in Mohali and one in Andhra Pradesh Medtech Zone, AMTZ Visakhapatnam Andhra Pradesh India.

FACTORY VIEW

Our Clientel

HDFC BANK, Payments Bank, BharatPe, paytm, Easebuzz, mswipe, MobiKwik, Apollo PHARMACY

Our Core OEM Verticals:

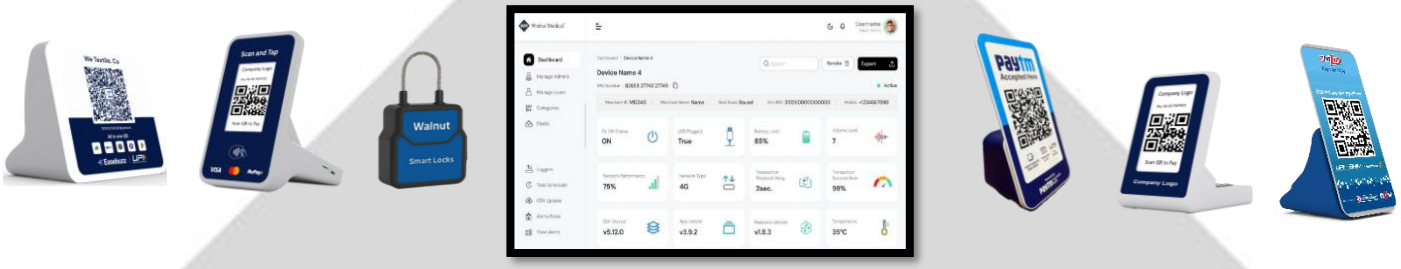

1. **Medical Devices & Robotic Rehabilitation Systems**
   We specialize in the design and manufacturing of CDSCO approved **Class B and Class C** medical devices.

   a. **Respiratory:** Nebulizers and Oxygen Concentrators
   b. **Over the Counter:** Automatic Blood Pressure Monitors and Infrared Thermometers(Thermosure)
   Gold Standard Electronic BP Monitoring Device under development in collaboration with **ICMR for funding and AIIMS-Nagpur**, **AIIMS-Delhi** and **Chettinad Super Speciality Hospital for clinical trials**
   c. **Neuro-Rehabilitation:** Lower Limb Gait Training Robot (Walklab), Functional Electrical Stimulation (FES) and TDCS (Transcranial Direct Current Stimulator), RTMS (Repetitive Transcranial Magnetic Stimulation), RMNS (Right Median Nerve Stimulation)

2. **<u>Point of Sale (POS) - IOT Devices-SaaS:</u>** With the boom in digital payments, we provide **End-to End Smart Payment Soundboxes** which are **BIS approved** that support multi-language audio confirmations, secure integrations, and customizable features:-

a. **Digital Payment Confirmation SoundBox:** 4G/2G, NBIOT, BT, WIFI Smart payment speakers
b. **NFC Tap and Pay with Chip Insert (EMV) (to launch in 2026)**
c. **4G Smart Lock :** Real-time status monitoring, Industrial grade design -IP67, 6 months standby capability.
d. **Payment Terminal IOT Management Platform-** SaaS platform for Monitoring and Management of IoT device.

3. **<u>Automotive Electronics</u>**: In the **automotive sector**, we offer with Smart Cluster manufacturing services including control modules, infotainment components, and sensor integration for LMV and HMV.

a. **Smart Instrument Clusters:** 7/10 inch smart instrument cluster with 4G/BT/Wifi for Farm equipment's & 2 wheelers – Android and RTOS based
b. **Automatic Tractors Electronic Suite-**
    - Complete suite for Smart IoT Enabled Electronics for Agricultural Equipment/Earth Moving Equipment/Tractors.
    - Electronic for Automation for Agricultural Tractors.

<u>Background of Directors</u>

CEO: Mr. Siddharth Dhawan (Director and CEO)

spent 10 years at National Instruments Corp. in the USA/India working in the high tech embedded and control systems managing business in India

CTO: Mr. Amol Bhardwaj (Director & CTO)

leads medical device development at Walnut Medical has successfully launched medical devices in the diagnostics, therapeutic and robotics domains - EEG, ECG, RTMS, Gait Training Robots etc. Comprehensive knowledge of QC tools/SPC/APQP/PPAP/Six Sigma/CPK/5S. MR for 5 years (2009-2014) in audits of ISO13485 and CE surveillance audits

Compliances: ISO13485, ISO 80601-2-69, ISO 60601-1, ISO 60601-1-2 (NABL accredited labs), CE, FCC, ROHS

Infrastructure:

- 60,000 sqft Electronic devices manufacturing area expanding to 80,000 sqft
- In-house fully automatic surface mount technology (SMT) –RS1 JUKI Japan – 100,000 CPH
- In-house testing and calibration of electronic goods – Keysight, National Instruments, Rigol, Tektronix
- In-house PCB design, validation, prototyping, pilot lot to full scale production
- In-house IQC, LQC, OQC quality departments that are best in class for highest quality production
- Design development of mass production molds and plastics injection molding facility

Strengths:

- **Mass manufacturing of electronic devices >300k units/month**
- Embedded systems production using DICE and chip bonding technology for maximum cost savings
- Lean manufacturing systems implementation across the organization
- In-house AWS server-side programming, RTOS platforms for IOT devices, MQTT, HTTPS, FOTA, JSON etc.

Financials:

- **CAGR > 100%** for last 4 years
- Debt free - Bootstrapped company – growing with internal accruals

At **Walnut Medical**, we blend **Engineering precision with User-Centric design**, delivering OEM solutions that are both innovative and reliable. We welcome the opportunity to collaborate and explore synergies with your team.
